PAN INDIA ROLL OUT OF PROJECT PARIVARTAN

RailTel Corporation of India Limited, one of the largest neutral Telecom Infrastructure Providers in the country made the year 2013 memorable in its history with the 'Go Live' of all ERP Modules (Oracle based solutions). A first of its kind among Indian PSUs, this pan-India roll-out of ERP was delivered within a record time of 10 months and marked a significant milestone for RailTel towards its commitment of enabling India's Knowledge Economy. The project scope included implementation of Oracle applications for 'Finance', 'Sales & Marketing', 'Human Resources', 'Operations & Maintenance' and 'Project & Procurement'. This ERP application available for all its employees corporate office, four regional offices, all Territorial offices & field offices will equip RailTel with the technology to not just bring transparency, efficiency and productivity in its operations, but also advance towards a green and paperless working culture.

Addressing on the occasion, Shri R. K. Bahuguna, Chairman and Managing Director of RailTel acknowledged the efforts and contribution of RailTel's Core working group (RCWG), all RailTel employees, Wipro Ltd.(SI) and Ernst & Young (Consultant) for the success.
