<u>**Press Release**</u>

RailTel Bagged Two Awards in Digital Innovation and Cyber security Summit 2019

It was proud moment for RailTel when it bagged two prestigious awards on the Digital Innovation and Cyber security Summit 2019 organized by Department of Information Technology and Electronics, Government of Haryana. RailTel bagged the first award for it's path breaking project of railway station Wi-Fi which is one of the largest and fastest public Wi-Fi network of the world. The Second award was conferred to RailTel for its retail broadband service RailWire. The RailWire broadband is provided to customer on collaborative model where a Local cable operator works as a last mile provider.

The Summit was organized on 15.1.2019 at Gurugram, Haryana. Capt. Abhimanyu, Hon'ble Finance Minister, Govt. of Haryana graced the occasion as Chief Guest and inaugurated the summit along with Principal Secretary/IT, MD/Hartron and host of other dignitaries.

Sh. Puneet Chawla, CMD/RailTel expressing his joy, said "We are extremely honored to receive these two awards in recognition of our effort in contributing toward Digital India. We are maintaining the state IT infrastructure comprising state data center and entire state-wide area network at district, block and village level which is providing e-governance services to citizens of Haryana. These services are impacting the common man by providing transparent and faster citizen centric services for which earlier they had to run around".

Sh. Suresh Kumar/ED/Northern Region and his team received the awards on behalf of RailTel. Sh. Suresh Kumar was also honored with Speaker trophy for his excellent speech given on RailTel and it's service portfolios with emphasis on present business with HARTRON and upcoming business opportunities in the field of smart city, village Wi-Fi opportunities, expansion of RailWire services in the state of Haryana. RailTel affirmed its continuous support and commitment for working with Govt. of Haryana towards Digital India Initiative.

Digital Innovation and Cyber security Summit is one of the flagship summit focused on exchange of ideas and view points, regarding the need to deploy modern technologies like Block Chain, Internet of Things, Artificial Intelligence in the era of Digital India & Smart Cities and ways to be secure from cyber-attacks, to protect precious data and create a safe ecosystem. This event saw huge participation of thought leaders, policy makers, industry experts, International Agencies and Embassies, and relevant stakeholders of the information technology domain both from private and government sector, academia and others.
