

## Hon'ble MR Inaugurated Paperless unreserved Mobile ticketing at Mumbai/WR , SMS alerts for arrival of Train at destination station (Rajdhani) and Hindi Version of E-Ticketing from Railway Board New Delhi using RailTel TPaaS

Hon'ble Minister of Railways, Shri Suresh Prabhu, inaugurated Paperless unreserved Mobile ticketing at Mumbai/WR , SMS alerts for arrival of Train at destination station (Rajdhani) and Hindi Version of E-Ticketing Portal using RailTel's Telepresence service from Railway Board at New Delhi . Senior Railway Officials were also present during the ceremony.

RailTel was entrusted with proving the Telepresence service connecting Railway Board at New Delhi and Railway Board at Mumbai. A number of similar flagging off and inauguration has been carried out by Ministry of Railways connecting various places of the country using RailTel's Telepresence service making it a trend.

RailTel's Telepresence Services is an enterprise class Full High Definition (HD) & secure multi-point managed video conferencing service that enables organizations to communicate/ collaborate with different user groups internally and externally and allows to enhance employee productivity and cut travel expenditure more effectively without the need of a face to face meeting . RailTel's Telepresence solution is a small step towards enabling a virtual world and it also complements the current Corporate's and Government's goals of 'going green' and supporting sustainability. The solution being on OPEX model, the customer need not to own the hardware and bother about maintenance issues, technological obsolescence etc. The use of Telepresence has been shown to reduce travel costs, alleviate scheduling conflicts, increases productivity and promotes a more cohesive work force across the many times zones of our new global economy.
